

VAISHNAVI PARAB

Python Developer | Bsc.IT Graduate

Phone: 8097610560 | Email: vaishnavi52333@gmail.com | GitHub: <https://github.com/vaishnavi-11-n>

LinkedIn: <https://www.linkedin.com/in/vaishnavi-parab-738488313> | Portfolio

Technical skills

Programming languages: Python, C, C++, JavaScript
Backend: Django, REST APIs
Blockchain: Solidity, Web3.py, Ethereum, MetaMask
Business Intelligence: Power BI (Basics) , excel

Frontend : HTML5, CSS3, JavaScript, React.js
Databases: PostgreSQL, MySQL, SQL
Developer Tools: Git, GitHub, VS Code, Postman
Operating Systems: Windows, Linux (Basic)

Projects

Four-Way Traffic Signal Management System

Python | Tkinter

- Developed a GUI-based traffic signal simulator to model traffic control at a four-way intersection.
- Implemented automated traffic light sequencing using event-driven programming and timed state transitions.
- Designed synchronized traffic visualization with graphical road layouts.
- Applied modular programming principles for code organization and maintainability.

DecentraVote – Blockchain-Based Voting System

React.js | Django | PostgreSQL | Solidity | Ethereum | Web3.py | JWT | MetaMask

- Developed a full-stack blockchain-based voting platform for secure and transparent digital elections.
- Implemented JWT authentication and role-based access for secure user management.
- Integrated Ethereum smart contracts using Solidity and Web3.py to record tamper-resistant votes.
- Built modules for voter registration, candidate management, vote casting, and election result generation.
- Used PostgreSQL to manage application data, users, candidates, and elections.

ATM Management System

Python | Tkinter

- Developed a desktop-based ATM application from scratch using Python and Tkinter.
- Implemented PIN authentication, cash withdrawal, deposit, and balance enquiry functionalities.
- Designed an interactive graphical interface with input validation.
- Applied object-oriented programming concepts to create modular and reusable code.

INTERNSHIP EXPERIENCE

Web Development Intern - CodSoft (online)

May 2026 - June 2026

- Developed web development projects using HTML, CSS, JavaScript, and Python.
- Worked with Git and GitHub for version control.
- Improved debugging, coding standards, and project implementation through practical assignments.

Software Development Intern - Prodigy InfoTech (online)

Jan 2025 - Feb 2025

- Completed software development projects using Python.
- Strengthened programming, debugging, and problem-solving skills through project-based learning.
- Gained practical exposure to software development workflows and version control.

Deloitte Australia – Data Analytics Job Simulation (Forage)

(virtual job simulation)

- Completed practical data analytics tasks using business datasets.
- Created interactive dashboards and visualizations using Tableau.
- Applied Excel functions and analytical techniques to derive business insights.
- Presented findings to support data-driven decision-making.

EDUCATION

Bachelor of Science (Information Technology)

2023 - 2026

University of Mumbai Smt. K. L. Tiwari Degree College CGPA: 9.62 / 10

Higher Secondary Certificate (HSC)

2022-2023

Wilson College, Mumbai

Secondary School Certificate (SSC)

St. Francis High School , Bhayander

2020- 2021

CERTIFICATION

Python for Data Science – Reliance Foundation Skilling Academy | Skill India Digital | NSDC (180 Hours)

Python Core & Advanced Programming – MKCL | Grade: A+ (87%)

Database Management using MySQL – MKCL | Grade: A+ (88%)

DLL Extension Work Certificate – University of Mumbai

LANGUAGE English, Marathi, Hindi
